POOLS

THE *PREMIUM* FIBREGLASS POOL
CONSTRUCTION COMPANY

In conjunction with Landscapes WA, WA Fibreglass Pools has won gold both locally and nationally (SPASA Awards of Excellence) for Display of the Year. Our new display village took four months to construct and shows off a variety of pools from 4m to 10m in length and 2.25m to 4m in width.

WA FIBREGLASS POOLS

If you are considering the purchase of an in-ground fibreglass swimming pool, WA Fibreglass Pools is here to help!

At WA Fibreglass Pools we offer an exceptional range of high quality, affordable swimming pools with outstanding service not to be rivaled within Perth and Regional WA.

We understand the process of installing and maintaining a pool can be confusing and that is why we have knowledgeable pool experts ready to answer your questions and concerns. We really take the confusion out and [MAKE IT EASY.](#)

WA Fibreglass Pools believes that a swimming pool should be affordable, easy to maintain and installed within a few weeks, not months. There are many designs and pool layouts to choose from so we welcome you to our company and encourage you to learn about the work we proudly do.

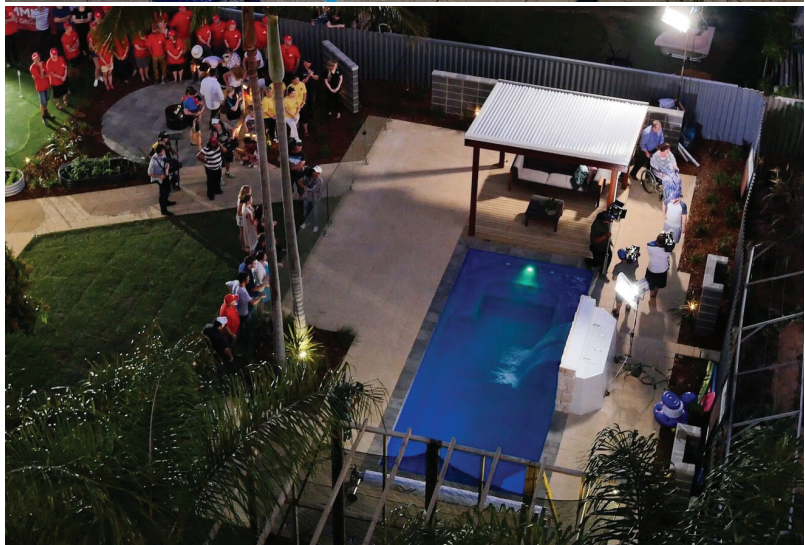

It's time to make your home your own private getaway, where you can gather with family and friends to celebrate life and build memories... [JUST ADD WATER!](#)

We aim to make the installation of your new WA Fibreglass swimming pool as quick and painless as possible.

Our pools are well constructed & engineered and we only employ quality trades people.

We pride ourselves on our reputation because we know [YOU DESERVE THE BEST!](#)

The team at WA Fibreglass Pools are proud to have been a partner with Channel 9's Matt and Kim to the Rescue.

In conjunction with Landscapes WA, WA Fibreglass Pools have helped transform the backyards of a number of Perth families that were down on their luck.

All products and labour were donated to help make a bit of a difference to the lives of these amazing families.

With the full house renovation taking only a few days, the quality of the works achieved is nothing short of amazing.

A modern swimming pool at dusk. The pool is surrounded by a grey stone deck. A stone wall with three waterfalls separates the pool from a garden area. The garden features various plants, including a large tree on the left and a spiky plant in the center. A pergola with warm lights is in the background. The sky is cloudy and the overall lighting is warm and inviting.

Our Full Range of Swimming Pools

“It is such a pleasure coming home now, its just like having our own resort in the backyard”

“We are delighted with our new WA Fibreglass Pool (Weekender Model) that was installed in our backyard. Everyone we dealt with through the whole process was extremely professional.

Lenny was fabulous dealing with all our purchase decisions helping with the best pool location and tailoring an equipment package that suited our lifestyle.

The whole install process was explained clearly with us at our home prior, so we knew what to expect but were still amazed to watch it all unfold in what can only be described as seamless, the whole crew are obviously very experienced and good at what they do.

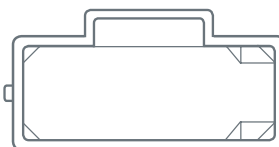

Our pool was installed and cleaned ready to swim in just 1 week.

We were amazed with the overall service from WA Fibreglass Pools and would not hesitate to recommend them to anyone.

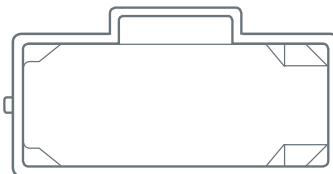

It is such a pleasure coming home now, its just like having our own resort in the backyard.

Now the kids are spending their days outside in and around the pool with their friends just like we used to”

- Craig, Claudia and Family, Quinns Rocks

Dual swim outs in the deep end, corner entrance steps in the shallow end and a large in-set seated area makes the Weekender series the ideal pool for entertaining. Add the option of custom spa jets for the ultimate experience.

Customer Reviews

"From meeting Jason and Lenny at the expo our pool journey with WA Fibreglass Pools has been seamless and easy. Each member of the company fulfilled their roles very professionally. This made the whole process very straight forward. We cannot recommend WA Fibreglass pools highly enough. Thank you all for helping us see and execute our vision."

- Tara, Carine

"Recently had our pool installed by WA Fibreglass Pools and WOW what an experience!!! A huge thank you to all from sale to installation to hand over. Started with Len and his professionalism and product knowledge was absolutely unbelievable. He was amazing and can highly recommend him if you looking for a pool. It was equally followed by an amazing installation team and then hand over. All involved was so friendly and helpful. A huge thumbs up from us."

CHLORSHIELD

THE ULTIMATE PROTECTION FOR YOUR FIBREGlass POOL

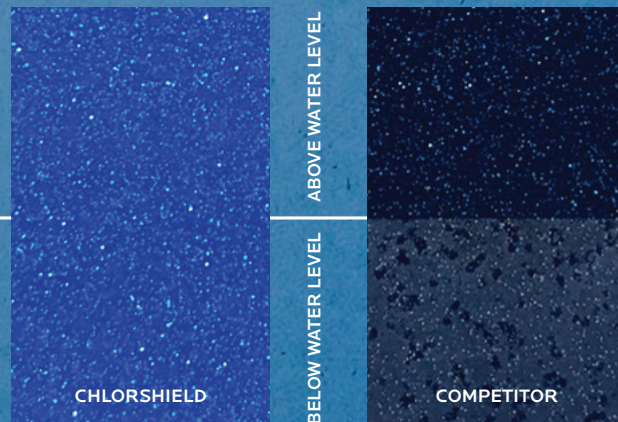

The next generation of swimming pool surface gelcoat technology, CHLORSHIELD gelcoat by RF Composites delivers unparalleled durability and protection of your pool's cosmetic appeal, guarding against chlorine bleaching and oxidation of the pool surface.

CHLORSHIELD gelcoat surpasses Australian Standard AS1838 by a factor of 10, retaining 99.5% of it's gloss after exposure to even the harshest chemical conditions.

CHLORSHIELD is built tough with advanced flexural strength and impact resistance to protect your pool against cracking.

CHLORSHIELD defends your pool, preserving its beauty, finish and sparkle while being offered in a wide range of vivid colours and highlights.

PLEASE NOTE: Images are a representation only. We always recommend visiting a display centre to view our colours in-ground before making your final selection.

Our Technology

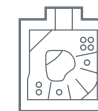

We boast WA's strongest pools due to our Rib Strengthening Construction Layer building system (RSCL). This means we can offer you a design to meet your needs. The RSCL ribs are a series of structurally engineered ribs that are attached to the exterior of the pool shell for support, which allows the pool shell to be completely installed in one stage. No unnecessary "backwards and forwards" to site ensuring the job is completed on time.

Our edge beams are constructed to the highest engineering standards which means no need for messy concrete around the underside of the pool edge.

Our quality pool construction includes:

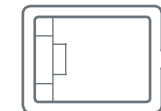

- » Steps fully supported on backfill
- » Covered with double thickness Fibreglass on lay-up
- » Non-slip surface on walk-in steps and floor
- » Underside of walk-in steps enclosed with fibreglass to prevent voids in backfill.
